PROFESSIONAL SUMMARY

Hybrid Software Developer & QA Engineer with hands-on experience in manual testing, API testing, UI development, and debugging. Skilled in JavaScript, React.js, HTML/CSS, Core Java, SQL, MongoDB, and QA practices including test case design, bug reporting, regression testing, and Agile methodology. Demonstrated ability to improve product quality, optimize testing processes, and collaborate effectively with developers. Seeking a role where I can contribute to both quality engineering and software development.

TECHNICAL SKILLS

Testing: Manual Testing, API Testing, Regression Testing, Test Case Design, Test Execution, Bug Reporting

Tools: Jira, Postman, JMeter, Git/GitHub

Development: JavaScript (ES6+), React.js, HTML5, CSS3, Core Java

Databases: SQL, MongoDB

Concepts: SDLC, STLC, Agile (Scrum), CI basics

Other: Problem-Solving, Debugging, Collaboration

EXPERIENCE

QA Engineer Intern — U & I Holidays, Andheri

Jun 2025 – Nov 2025

- Executed structured test plans improving product quality by 30%.**
- Performed manual and API testing using Postman, identifying critical defects.**
- Automated repetitive tasks, reducing manual effort by 50%.**
- Documented test cases and scenarios for functional, usability, and regression testing.**
- Participated in Agile sprints, improving team delivery efficiency by 20%.**
- Analyzed test results and provided actionable insights to developers.**
- Supported CI processes and reduced post-release defects by 15%.**

Manual Tester Intern — Grafotics, Virar

Mar 2023 – Aug 2023

- Executed functional and regression test cases ensuring reliable product performance.
- Identified and documented defects, improving software stability by 30%.
- Automated repetitive testing tasks saving 15 hours weekly.
- Performed requirement analysis and created detailed test plans.
- Improved team communication through daily stand-ups under Agile methodology.
- Delivered feedback reducing post-release issues by 20%.

PROJECTS

Smart Study Scheduler — JavaScript, HTML, CSS

- Built a responsive web app for study planning with reminders and progress tracking.
- Implemented localStorage-based persistence and modular JS structure.
- Designed UI and performed functional testing to ensure stable performance.

Age Calculator — JavaScript, HTML, CSS

- Created a precise age calculation tool with real-time validation.
- Tested edge cases and improved error handling for a smooth user experience.

EDUCATION

B.Sc. Computer Science

Satish Pradhan Dnyansadhana College, Thane

2017 – 2021 | CGPA: 6.69/10

CERTIFICATION

**Software Testing – QUASTECH IT Training & Placement Institute
(Manual Testing, SDLC, STLC, Bug Life Cycle, Test Documentation)**
